

## **Why become a partner of ESPP?**

ESPP's partners are companies and organisations which are interested in cooperating in and promoting sustainable phosphorus management and which pay the partner contribution.

## **ESPP partnership contribution**

ESPP partners pay the following contribution, per year, ex-VAT:

€10,000 for national governments/public structures and national nutrient/phosphorus Platforms

€6,000 for companies, industry associations

€4,000 for city or regional governments/public structures

€2,000 for knowledge institutes\*, NGOs\*, small businesses and other types of organizations

\* the Platform may in some cases accept 'in kind' payment by knowledge centres and NGOs.

## **Benefits of partnership**

- Recognition by visibility in the Platform's communications as a partner on the Platform website, newsletter and other publications, including:
  - inclusion of partner's logo, short presentation of your actions on the Platform's website
  - inclusion of logo as a Platform partner on the ESPP's communications (including SCOPE Newsletter, circulated every 1-2 months to around 60 000 scientists, media and decision makers)
- Access to and participation in the Platform's network of experts, R&D projects, phosphorus user and management industries, regulators and other stakeholders, including facilitating access to information on technologies, projects, implementation, bench-marking and regulatory developments, and including participation in technical meetings/ trainings/ web-seminars organised by ESPP
- Participation in defining the permanent objectives, actions and organisation of the European Sustainable Phosphorus Platform.
