

INNOVATION IN MANURE PROCESSING

DO YOU HAVE AN INNOVATIVE IDEA?
JOIN THE COMPETITION AND WIN THE 'IVAN TOLPE-AWARD'!

As a homage to Ivan Tolpe, a pioneer in manure processing from West-Flanders, The Flemish Coordination Centre for Manure Processing or VCM (Belgium) organizes the second edition of the 'Ivan Tolpe' Award in 2017. The aim of this award is to develop and support **innovative, promising techniques**, in order to maintain the leading role of Flanders in manure processing.

TARGET GROUP?

Non-profit organisations, companies, individuals, researchers, ... with a ready for **practice, rapidly implementable and innovative technology** usable in manure processing. This year, also participants from abroad can join the competition, but the concept needs to be applicable in the Flemish context.

REWARD?

Ivan Tolpe-award + cash prize of 2 000 euro.

Possibility to elaborate the project during the third International 'Manuresource' conference that will take place in 2017 and free participation in this conference. Visualization of the technology on the VCM-website and in the newsletter.

DEADLINE?

Send us your application form before Friday October 28th 2016!
